Abstract:

This article is based on unpublished documents filed in the Historical Archives of the Ministry of Foreign Affairs of Chile for the period 1974-1989. This analysis has enabled file review and refute an important part of the current debate.

This research allows us to affirm that the military regime not only practiced a foreign policy "Praetorian ideological" as he claimed the debate so far, but a pragmatic policy. This policy will not only survive allowed in its period, but survived beyond its end.

Keywords: Japan. Chile. International relations. Pinochet regime. Pragmatic alliance.
