

ISO 3677:1992, Filler metal for soft soldering, brazing and braze welding - Designation

INTERNATIONAL
STANDARD

ISO
3677:1992

ISO 3677

Soft soldering fluxes — Classification and requirements —
Part 2
Performance requirements
For all designations — Classification and requirements —
For all processes of brazing

ISO 3677

Specifies designations on the basis of filler material chemical composition. For brazing and braze welding materials only, the designation includes their solidus/liquidus temperatures. Deals only with those filler metals. Buy DIN EN ISO () Filler metals for soft soldering, brazing and braze welding - Designation (ISO) from SAI Global. ISO June Filler metal for soft soldering, brazing and braze welding - Designation. Historical Version. DIN EN ISO April Filler metal for soft soldering, brazing and braze welding - Designation (ISO); German version EN ISO. ISO's member body in the country of the requester. . ISO was prepared by Technical Committee ISO/TC 44, Welding and allied processes. ISO , Filler metal for soft soldering, brazing and braze welding Designation The filler metal shall be designated by the description filler metal. [10] EN ISO - Filler metal for soft soldering, brazing and braze welding - Designation (ISO). [11] EN ISO Filler metal for soft soldering, brazing and braze welding - Designation (ISO). ISO Filler metal for soft soldering, brazing and braze welding Specifies designations on the basis of filler material chemical.
