Teachers,

Due to the cancelation of tomorrow's in-service, we may not have time to discuss **Biblical Integration** within the classroom setting as a staff - so I have attached to the email a video that I would like you to watch from a conference (**Integrate** Conference) that I attended in the Spring.

In this video, Dr. Annie Gallagher discusses different strategies that you can have to **integrate biblical** principles in your classroom each day - in all grades. Some of you may be familiar with Summitt Ministries, which is who sponsored the Conference.

As a Christian school in the times that we are living in, it is very important that we continue to effectively teach our students the **biblical** foundations that are necessary. One thing that stands out to me within the video is that Dr. Gallagher explains that **biblical integration** is more than just saying a bible verse, but teaching a Christian Worldview that is backed by **biblical** evidences and relating each subject to God's Word.

Here is the link, if it requires a password - **integrate**:
